

Self-Adhesive Joint Tape for Plasterboard

FibaTape®

ADFORS FibaTape® offers a full line of products for wall finishing.

The ADFORS FibaTape® family of products includes a complete range of innovative drywall joint tapes and cracks repair products, each offering strength, flexibility, easy installation and considerable cost savings.

- stronger joint than paper tape
- stronger joint than standard glass fibre tape
- high quality standard

HOW TO APPLY ADFORS FibaTape®

1. Apply the self-adhesive side directly onto joints.
2. Cover the fabric completely with a thin coat of plaster (5-10 cm wide).
3. To finish, recover with a further coat of plaster (15-20 cm wide).

CLASSIC

Self-adhesive drywall joint tape

Self-adhesive — For an easy application.

High mechanical strength — Fiberglass mesh for stronger joints.

Smooth finish — Open mesh to eliminate blisters and air bubbles.

MOLD-X

Anti-mold drywall tape

Anti-mold — Provides mold protection for a safer environment. Perfect for wet rooms.

Greater protection — Provides more protection than other drywall tapes in moist environments. Perfect "10" rating on ASTM G 21-96 mold test.

Perfect compatibility — Ideal for use with mold-resistant drywall.

XTREME

Extreme environment drywall tape

Extreme tack — More glue for a better grip to help keep tape secure in humid or cold environments.

Extreme humidity — Adheres in environments up to 60% relative humidity.

Extreme temperatures — Performs in temperatures of 5-35°C.

PERFECT FINISH

Ultra-thin drywall tape

Thinner profile — Over 30% thinner than standard paper drywall tape and regular fiberglass mesh tape - without compromising strength.

Increased strength — 50% more intersection points and an increased number of fabric yarns for unparalleled durability.

Ideal for ceilings — A thinner profile requires less compound for easier feathering and sanding.

PACKAGE

ADFORS FibaTape®	roll	rolls / box	rolls (boxes) / palette
