

# SAFETY DATA SHEET NITOFLOR COVING UT FILLER

SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier	
Product name	NITOFLOR COVING UT FILLER
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	Aggregate component of isocyanate-based floor-coating system.
1.3. Details of the supplier of the	ne safety data sheet
Supplier	Fosroc Yapi Kimyasallari San. Ve Tic. A.S. Aydinevler mah. Sanayi cad. Demirtas Plaza No:13 Kat:3 34854 Maltepe ISTANBUL TURKEY +90 216 463 6776 enquiryturkey@fosroc.com
1.4. Emergency telephone num	nber
Emergency telephone	+90 262 728 15 07
National emergency telephone number	ə Turkey: Ulusal Zehir Danışma Merkezi (UZEM) :114 Acil Sağlık Hizmetleri : 112
SECTION 2: Hazards identifica	ation
2.1. Classification of the substa	ance or mixture
Classification (SI 2019 No. 720	±
Physical hazards	Not Classified
Health hazards	Skin Irrit. 2 - H315 Eye Dam. 1 - H318 STOT SE 3 - H335
Environmental hazards	Not Classified
·	
Human health	See Section 11 for additional information on health hazards.
Environmental	The product is not expected to be hazardous to the environment.
2.2. Label elements	
Hazard pictograms	
Signal word	Danger
Hazard statements	H315 Causes skin irritation. H318 Causes serious eye damage.

H318 Causes serious eye damage. H335 May cause respiratory irritation.

Precautionary statements	<ul> <li>P261 Avoid breathing dust.</li> <li>P264 Wash contaminated skin thoroughly after handling.</li> <li>P310 Immediately call a POISON CENTER/ doctor.</li> <li>P312 Call a POISON CENTRE/doctor if you feel unwell.</li> <li>P405 Store locked up.</li> <li>P501 Dispose of contents/ container in accordance with national regulations.</li> </ul>
Contains	WHITE PORTLAND CEMENT
Supplementary precautionary statements	<ul> <li>P271 Use only outdoors or in a well-ventilated area.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> <li>P302+P352 IF ON SKIN: Wash with plenty of water.</li> <li>P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.</li> <li>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P321 Specific treatment (see medical advice on this label).</li> <li>P332+P313 If skin irritation occurs: Get medical advice/ attention.</li> <li>P362+P364 Take off contaminated clothing and wash it before reuse.</li> <li>P403+P233 Store in a well-ventilated place. Keep container tightly closed.</li> </ul>

### 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients		
3.2. Mixtures		
WHITE PORTLAND CEMENT		30-60%
CAS number: 65997-15-1	EC number: 266-043-4	
<b>Classification</b> Skin Irrit. 2 - H315 Eye Dam. 1 - H318 STOT SE 3 - H335		

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

### SECTION 4: First aid measures

### 4.1. Description of first aid measures

General information	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.	
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink.	
Skin contact	Rinse immediately with plenty of water. Get medical attention if symptoms are severe or persist.	
Eye contact	Do not rub eye. Remove any contact lenses and open eyelids wide apart. Rinse immediately with plenty of water. Get medical attention immediately.	
4.2. Most important symptoms and effects, both acute and delayed		
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	May cause respiratory irritation.	

Skin contact     May cause an allergic skin reaction. Causes skin irritation.       Eye contact     Causes serious eye damage.       4.3. Indication of any immediate medical attention and special treatment needed       Notes for the doctor     Treat symptomatically.       SECTION 5: Firefighting measures     The product is non-combustible. Use fire-extinguishing media suitable for the surrounding full       Suitable extinguishing media     The product is non-combustible. Use fire-extinguishing media suitable for the surrounding full       Special hazards arising from the substance or mixture     Special hazards       Special hazards     Water used for fire extinguishing, which has been in contact with the product, may be corrosive.       Hazardous combustion     Does not decompose when used and stored as recommended.       products     Os specific firefighting precautions known.       firefighting     No specific firefighting precautions known.       or firefighting     Section 13.       Special productive equipment     Use protective equipment appropriate for surrounding materials.       for firefighting     For personal protection, see Section 8.       6.1. Personal precautions     Avoid the spillage or runoff entering drains, sewers or watercourses.       6.3. Methods and material for containment and deaming up       Methods for cleaning up     Collect powder using special dust vacuum cleaner with particle filter or carefully sweep into suitable waste disposat containers and seal securely. Label the containers con		
Eye contact       Causes serious eye damage.         4.3. Indication of any immediate medical attention and special treatment needed         Notes for the doctor       Treat symptomatically.         SECTION 5: Firefighting mealia       The product is non-combustible. Use fire-extinguishing media suitable for the surrounding function         Suitable extinguishing media       Do not use water jet as an extinguishing, which has been in contact with the product, may be corrosive.         Specific hazards       Water used for fire extinguishing, which has been in contact with the product, may be corrosive.         Hazardous combustion       Does not decompose when used and stored as recommended.         products       Dispecific firefighting precautions known.         firefighting       Special protective equipment         Special protective equipment       Use protective equipment appropriate for surrounding materials.         for firefighters       For personal procedures         Personal precautions       For personal protection, see Section 8.         6.1. Personal precautions       Avoid the spillage or runoff entering drains, severs or watercourses.         6.3. Advice of the sections       Collect powder using special dust vacuum cheaner with particle filter or carefully sweep into suitable wate disposal containers and seal securely. Label the containers containing wata and contaminated materials and remove from the area as soon as possible. Collect and dispose of spillage as indicated in Section 13.         <	Ingestion	The product irritates mucous membranes and may cause abdominal discomfort if swallowed.
4.3. Indication of any immediate medical attention and special treatment needed         Notes for the doctor       Treat symptomatically.         SECTION 5: Firefighting measures       5.1. Extinguishing media         Suitable extinguishing media       The product is non-combustible. Use fire-extinguishing media suitable for the surrounding form the substance or mixture         5.2. Special hazards arising from the substance or mixture       5.2. Special hazards arising from the substance or mixture         Specific hazards       Water used for fire extinguishing, which has been in contact with the product, may be corrosive.         Hazardous combustion       Does not decompose when used and stored as recommended. products         5.3. 	7.2. Conditions for safe storag	e, including any incompatibilities
	Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Protect from moisture.

#### Storage class

Chemical storage.

7.3. Specific end use(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

### SECTION 8: Exposure controls/Personal protection

#### 8.1. Control parameters

Occupational exposure limits
WHITE PORTLAND CEMENT

Long-term exposure limit (8-hour TWA): WEL 4 mg/m<sup>3</sup> respirable dust Long-term exposure limit (8-hour TWA): 10 mg/m<sup>3</sup> inhalable fraction WEL = Workplace Exposure Limit.

### 8.2. Exposure controls

Protective equipment

Appropriate engineering controls	Ensure control measures are regularly inspected and maintained.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Wear tight-fitting, chemical splash goggles or face shield.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. Polyvinyl chloride (PVC). Nitrile rubber.
Other skin and body protection	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Respiratory protection	Ensure all respiratory protective equipment is suitable for its intended use and is 'UKCA'- marked. Check that the respirator fits tightly and the filter is changed regularly. Wear a respirator fitted with the following cartridge: Particulate filter, type P2.

### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Appearance	Powder.
Odour	Odourless.
Odour threshold	Not determined.
рН	> 12
Melting point	~ 1250°C
Initial boiling point and range	Not determined.
Flash point	Not determined.
Evaporation rate	Not determined.
Evaporation factor	Not determined.
Flammability (solid, gas)	Not applicable.

Upper/lower flammability or explosive limits	Not applicable.
Other flammability	Not applicable.
Vapour pressure	Not determined.
Vapour density	Not determined.
Relative density	1.3 @ 27°C
Bulk density	Not applicable.
Solubility(ies)	Slightly soluble in water.
Partition coefficient	Not applicable.
Auto-ignition temperature	Not applicable.
Explosive properties	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	
Other information	Not available.
SECTION 10: Stability and rea	activity
10.1. Reactivity	
Reactivity	When mixed with water, hardens to form a stable mass that is not reactive in normal conditions.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	None under normal conditions of use.
10.4. Conditions to avoid	
Conditions to avoid	The product will harden into a solid mass in contact with water and moisture.
10.5. Incompatible materials	
Materials to avoid	Strong acids.
10.6. Hazardous decomposition products	
Hazardous decomposition products	No known hazardous decomposition products.
SECTION 11: Toxicological information	
11.1. Information on toxicological effects	
Serious eye damage/irritation	
Serious eye damage/irritation	Causes serious eye damage.
General information	Extensive use of the product in areas with inadequate ventilation may result in the accumulation of hazardous vapour concentrations.
	accumulation of hazardous vapour concentrations.

Ingestion	May cause discomfort if swallowed.
Skin contact	May cause an allergic skin reaction. Causes skin irritation.
Eye contact	Causes serious eye damage.
Route of exposure	Inhalation Ingestion Skin and/or eye contact
Target organs	Eyes Skin
11.2 Other Hazards	
SECTION 12: Ecological infor	mation
Ecotoxicity	The product components are not classified as environmentally hazardous.
12.1. Toxicity	
Toxicity	No data available.
12.2. Persistence and degrad	ability
Persistence and degradability	The product is not biodegradable.
12.3. Bioaccumulative potential	
Partition coefficient	Not applicable.
12.4. Mobility in soil	
Mobility	The product reacts with water to form a solid, insoluble reaction product which is not biodegradable.
12.5. Results of PBT and vPv	B assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	None known.
SECTION 13: Disposal consid	lerations
13.1. Waste treatment method	<u>ts</u>
General information	The generation of waste should be minimised or avoided wherever possible.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
SECTION 14: Transport information	
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	
Not applicable.	
14.2. UN proper shipping nam	
Not applicable.	
14.3. Transport hazard class(es)	
No transport warning sign req	uired.

14.4. Packing group

Not applicable.

#### 14.5. Environmental hazards

# Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

#### SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	<ul> <li>DNEL: Derived No Effect Level.</li> <li>PNEC: Predicted No Effect Concentration.</li> <li>PBT: Persistent, Bioaccumulative and Toxic substance.</li> <li>vPvB: Very Persistent and Very Bioaccumulative.</li> <li>REACH: The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577.</li> </ul>
General information	Only trained personnel should use this material.
Revision comments	This is the first issue.
Revision date	28/12/2022
Revision	1
SDS number	31072
Hazard statements in full	H315 Causes skin irritation. H318 Causes serious eye damage. H335 May cause respiratory irritation.
